Thank you for your continuing support of the Nora School Photography Festival. Now in our fifteenth year, tonight we are able to show works from more than 240 student photographers representing 15 public and independent schools. To see this thriving community of young artists is encouraging in an era when standardized testing is increasingly pushing the fine and performing arts out of too many schools.

The photographs you see tonight are testimony to the many ways in which we view the world around us... ways which have little to do with multiple choice, but have everything to do with communicating a unique and singular vision of the world.

I hope you enjoy the exhibition and will come back in future years to appreciate the artistic sensibilities of our students as they continue to grow and flourish in these supportive schools.
